- Filipino

PROFILE

Detail-oriented and passionate Frontend Developer with a strong foundation in HTML, CSS, and JavaScript, along with experience using modern frameworks like Bootstrap 5 and Tailwind CSS. Skilled in building responsive, user-friendly interfaces and translating UI/UX designs into high-quality code. Adept at collaborating with teams to develop and maintain functional, clean, and efficient web applications. Eager to contribute to innovative projects and grow as a full-stack developer in a dynamic tech environment.

WORK EXPERIENCE

Digiboard - Capstone Project   MARCH 2025 - APRIL 2025
Front-end Developer

- Developed the responsive frontend of Digiboard, a real-time digital whiteboard system designed for teachers and students. Utilized HTML, CSS, and JavaScript to create clean, intuitive interfaces for both user roles. Implemented an HTML5 Canvas for the whiteboard display and integrated WebSocket for real-time communication between teacher and student dashboards. Focused on optimizing usability, accessibility, and cross-device responsiveness. Ensured seamless user experience during live sessions and developed UI features for saving and managing whiteboard records.
